

### Operations SNAP

Solve the equation in two ways:

$8 + 6$

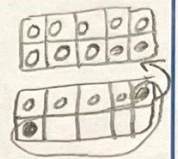

$8 + 6 = 14$

I counted on with my fingers

$8 + 6 = 14$

$10 + 4 = 14$

I made 10 by taking 2 from 6 and then added 4 to the 10 I made. I used 10 frames.

**Understanding & Solving:**  
 Example 1      1 2 3  
 Example 2      1 2 3

**Connecting & Reflecting:**  
 Real-Life or      1 2 3  
 Math Story or Problem

Draw or write a real-life example or a math story or problem using the equation above:

Beginning

8 birds sat in a tree.

+

Middle

6 more flew to join them.

=

End

Now there are 14 birds in the tree.
