

# Dice Race

## Four Ways to Play

### #1

- Each player needs 6 dice for this game. You can play it with 2 or more players.
- One person says "Go!"
- The players all roll their six dice. They are going to try to get them in order from 1 to 6. Say they roll, "1, 1, 1, 3, 3, 6. they will put the 1, the 3 and the 6 on the game board. Then they roll the remaining three dice and try to get the missing 2, 4 and 5.
- This is a race and first one to complete it is the winner.

### #2

- Play as above, but instead of players rolling their dice at the same time, players take turns with their own dice so that there is some accountability.

### #3

- Each player needs 6 dice for this game. You can play it with 2 or more players.
- Each person starts rolling one dice. Their aim is to get a "1". As soon as they roll a "1", they put that dice on the game board and start rolling their next die until they get a "2".
- This is a race, and the aim is to get all six dice in order from 1 to 6 first!

### #4

- Play as above, but instead of players rolling their dice at the same time, players take turns with their own dice so that there is some accountability
